Silver certificates, 67%; no sales; bar silver, 66%c; Mexican dollars, 53%c.

The exports of specie from the port of New York for the week amounted to \$12,200 in gold and \$747,991 in silver. The imports were: Gold, \$1,121,335; silver, \$19,379; dry goods, \$1.972,330; general merchandise, \$6,-

the requirements of the 25 per cent. rule. Total sales of stocks were 150,900 shares, including: American Sugar, 22,100; American Tobacco, 10,700; Atchison, 2,500; Burlington, 6,400; Chicago Gas, 31,700; Distilling, 9,900; General Electric, 1,900; Missouri Pacific, 2,-200; New Jersey Central, 1,800; Reading, 3,-

and unsettled, with the industrials again the leaders of the market. There was nothing new in the situation and the trading was almost entirely in the hands of professional operators who made all possible use of Friday's disturbances. At the opening of business the market was remarkably quiet, prices as a rule recording a general improvement. Wheeling & Lake Erie preferred and Tennessee Coal ed each 1% per cent. It was not before the attack on the industrials was renewed, Sugar breaking 2% per cent., Chicago Gas 3%, Tobacco 2% and Distill-ing 1%. The general market suffered to a lesser extent. Before 11 o'clock the down-ward tendency was checked by purchases to cover contracts, but there was a quick At the beginning of the last half hour there was a raily of 1/2 per cent. in which Tobacco, Chicago Gas, Rubber and Sugar led. In the final trading the bears again held the mastery. Chicago Gas sold off 2 per cent., Sugar, Tobacco and New England 1 and Heeking Coal Mark Per cent. land 1 and Hocking Coal 1½ per cent. The market closed weak with the industrials generally lower and the railroad list about evenly divided on the day. The only gain above a fraction in this group was in Theeling & Lake Erie preferred, which is cent, higher than at the close Friagainst 144 the last preceding sale. In the list of declines are: Chicago Gas, 4 per cent.; Illinois Steel, 2; Sugar, 178; Tobacco, 174, and Hocking Coal, 11/2 per cent.

During the week there have been some

notable fluctuations in the share list. In the earlier dealings the tendency was main-ly in the direction of higher figures, but ng the last three days a determined raid the industrial group not only caused a bus break in these properties, but de-sed the entire list, and most of the ocks dealt in show declines on the week. ngar, which started steady, is down 71/4 nee last Saturday's close, chiefly owing to a prominent operator. Chicago Gas, on the veto of the Lowenthal bill and reports wed activity of rival concerns, coupith talk of a temporary suspension of ends, led to a general liquidation and luge of stock was thrown on the mant, the bears adding largely to the volume ales. As a result, the price dropped to Covering of short contracts sent the res up to 64%, but in the closing dealings the bears again put the figures down to 60, with a recovery of only %at the close, making the net loss 12%. Wheeling & Lake Erie, on reports of good business, is up 2% on the week. The aggregate of the week were 1,705,100 shares, and stocks were dealt in. The more important changes in prices were: Declines—Consolidated Gas and Minneapolis & St.
Louis seconds preferred, 2½ per cent.;
Tobacco, 2%: Tobacco preferred, 2½; Rubber, 2½; Rubber preferred, 3¼. Advances—New York, New Haven & Hartford, 13%;
Adams Express, 5%; Metropolitan Traction, 2%, and Susquebanna & Western, 2 per

continued weakness of Chicago Gas the share speculation had its effect on the first mortgage bonds of the company aturday, the price dropping 6 per cent.

There was an absence of the previous week's strength in the bond market during this week. The sales were \$10,279,000, and 271 bonds were traded in. Advances were established of 7½ per cent. in Toledo, St. Louis & Kansas City firsts. Susquebanna & Western seconds lost 13 per cent. quehanna & Western seconds lost 13 per cent.; Susquehanna & Western terminal firsts, 3, and Chicago Gas firsts 6. Government bonds were featureless, the sales aggregating but \$36,000. State securities were neglected, and only \$34,000 worth changed hands, of which \$22,000 were Virginias and \$12,000 Tennessee.

Silver certificates were dealt in to the extent of \$20,000, at 66% and 66%.

LOCAL GRAIN AND PRODUCE.

Trade of the Week Satisfactory with No Important Changes. The trade of the week closing June 28, in some lines, was satisfactory. Iron and the grain markets are fluctuating; iron advancing, grain unsettled. The hide market went off 1/2c, and is dull; leather active, prices easing off a little. Fruits and vegetables have been in better supply than had been looked for, and prices on nearly all articles in these lines were easier the latter part of the week. Eggs went off 1/2c during the week. Poultry ruled steady, and the provision market carried a steady, firm tone through the week.

The grain market was up and down, but closed on Saturday a little lower than was the range of prices on Monday. Track blds yesterday ruled as follows: Wheat—No. 2 red, 73c; No. 3 red, 71c; wagon wheat, 75c.

A Difference in Sermons.

Dr. C. H. Parkhurst. In the old hot days of the church one sermon used to convert three thousand men; now that the temperature is down it takes three thousand sermons to convert one man. Intellectual activity upon Christian themes is not Christianity any more than working a flying trapeze in a church is "godly exercise."

Knew the Symptoms.

"The main problems of this day, sir, are easily solved," he began in a confident tone. "I myself—" "Ah, yes," said the gray-haired stranger. "Of course, of course. You were graduated this month, I suppose?" "Why, yes. How did you guess it?" "I know the symptoms."

THE MARKET BULLISH

AFTER A WEAK OPENING AT CHICA-GO WHEAT BECAME FIRM.

Receipts of New Wheat No Better Than the Taitings in Former Years-Provisions Gain.

CHICAGO, June 29.-Wheat, corn, oats and provisions all closed at some improvement to-day. The grain markets were weak, to begin with, but provisions struck a bullish gait at the start and kept it up. Wheat rose from 71%c for September to 72%c and corn from 47%c to 481%c.

Liquidation of July wheat, which was

the chief feature of the first hour's trading in that article, had run its course in that time, and, having done so, the short sellers found themselves confronted with probably small deliveries on July contracts and the old wheat tied up again for another two months. Wheat began as it had left off yesterday under the influence of the liquidation of the July holdings. For about half an hour that was the feature of the local trade which overshadowed everything else, and under the influence of which a decline of %c occurred, and the difference between July and September widened at one time to 1%c. The chief items of the market news referred to the week's shipments, and those told in favor of the bears. From both coasts Bradstreet reported the shipments of wheat and flour at 1,946,000 bushels, against 2,857,000 bushels the week before and 1,717,000 bushels in the corresponding week of 1894. The Argentine shipments for the week were 960,000 bush-Hams-Sugar-cured, 18 to 20 lbs average, shipments for the week were 960,000 bush-11c; 16 lbs average, 11c; 12½ lbs aver- els, which is about double what was sent out on the previous week, and so large as to upset all confidence in the previous reports of exhausted stocks in that country. The day's receipts at Chicago were nominally ten cars, but they included five carioads transferred from irregular to regular city houses. Minneapolis and Duluth received 237 cars, compared with 207 cars on the corresponding day of last year. The opening prices were about the same as the previous day's closing quotations, and for a minute or two there were enough buying orders to give an appearance of strength to the market. That gave way before the persistent selling out of July by those who did not wish to take what might be tendered to them on Monday, if they should remain holders of their contracts most generally prevailing price for a couple of minutes. Following that the tendency for an hour was steadily downward, until at 71%c the selling relaxed, and the rather confident conviction of a still further breaking gave place to alarm on the part of those who had been trading on such a con-viction. The reaction was sudden, and in ten minutes the decline, which an hour of persistent selling had brought about, was recovered and an advance established. About half an hour from the close September had risen to 7214c. The news concerning the winter wheat threshing proved what had previously been remarked about the unsatisfac-tory yield and the miserable quality unsatisfac-The feeling of danger to those on the short side, with the new wheat which is coming to market not much better than the tailings of previous years, was the uppermost thought in the minds of the crowd as the session was nearing its end, and caused the

price to advance to 72%c. The closing transactions were at 72%c, with July 13%c under Corn was dull and of itself heavy, but buying was encouraged by the closing strength in wheat and after an early decline of 4c per bushel it closed with 4c gain. The range for September was from 47%c to 48%c, the lowest price being made near the opening and highest at the close. The receipts of to-day were 74 cars, and 190 are estimated for Monday. The Argentine shipments for the week amounted to A good general business was transacted in oats. September and May ruled considerably nrmer, but the nearby deliveries were barely steady at the close and ruled capier during the greater and ruled easier during the greater part of the session. The firmness in the deferred

the session. The firmness in the deferred months was almost entirely in sympathy with wheat and corn. September ranged from 25c to 25%c. Yestrday it closed at 25¼ 25%c, and to-day at 25¼c.

Provisions recovered the bullish tone which appeared to have deserted them yesterday. The hog receipts were only 11,000 and all told for the week only 113,000 came to hand, compared with 127,000 on the similar week of the year before. The expected run of next week is guessed at 100,000 head and that also helped to produce the firmer feeling which prevailed. Compared with the previous day's closing prices, the following are the gains established by the final transactions: In pork, 17½c; by the final transactions: In pork, 171/20; lard, .05c, and in ribs, .07%c.
